

QUALITY POLICY STATEMENT

It is the policy of Status Metrology that all aspects of implementing its calibration & testing work and occupational health and safety requirements will conform to the quality system described in this quality process manual and comply with all the UKAS accreditation requirements for this calibration laboratory.

The scope of the management system is to provide its clients with a calibration & testing service complying with BS EN ISO/IEC17025:2017, BS EN ISO 9001:2015, ISO 10360-2: 2001, 10360-2:2009, ISO 10360-5: 2010, ISO 14253-1, ISO 14978, ISO 10012-1, and BS 8888.

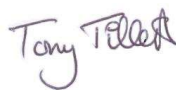

It is the responsibility of the departmental and quality managers to familiarise its staff with the content of the company's quality manual, always comply with the policies, procedures and associated documents laid down within.

It is the policy of the company to maintain an up-to-date register of all sites on which calibration is performed. This register is located within the permanent base of Status Metrology.

It is the objective of the quality management system to constantly provide a service that meets a customer's regulatory requirements and ensure customer confidentiality. It aims to enhance customer satisfaction through the effective application of the system and includes processes for continual improvement.

These statements are made on the authority of A Tillett.
